"CRISTO RE" HOSPITAL

COURSE DIRECTORS
LORENZO DEFIDIO AND ANUP PATEL

PURPOSE OF THE COURSE

Dear colleagues,

to review lessons learned over three decades of RIRS (Retrograde Intra-renal Surgery) stone treatment in key areas through lectures, hands-on practice and live surgi-

cal demonstration; to introduce new technological and safety developments for complex RIRS presented at major international urology congresses; to review the latest news in upper urinary tract urothelial cancer conservative management; and to promote interaction between residents-in-training and experts through the medium of panel discussion with real case-based problem-solving learning.
